

AXIS

SPINE

CENTER

Welcome to the **AXIS SPINE NEWSLETTER**

This will be a publication dedicated to a new and interesting topic each month. We will cover topics that include different approaches to spine surgery, physical therapy and its purpose, stem cells, pain injections and more!

In addition to this, we are excited to roll out our quarterly webinars covering specific topics in more detail with time for questions and answers. The first webinar of 2021 will be held on January 18. You can sign up [HERE](#).

If you have suggestions on topics you'd like to hear send them to info@axispinecenter.com

AXIS SPINE CENTER is this region's only comprehensive spine center. We are owned and operated by board-certified, fellowship-trained spine physicians, along with a dedicated and caring team of other highly-capable physicians, nurse practitioners, physician assistants, physical therapists, chiropractors and more.

Our team is committed to improving each patient's quality of life by increasing daily functioning and empowering their patients to achieve their goals. A healthy life often requires a healthy spine; we're here to help you get there.
